Jithesh Pallikkara

Healthcare IT leader turning complex enterprise platforms into business outcomes

Jacksonville, Florida hello@jitheshpallikkara.com jitheshpallikkara.com

linkedin.com/in/jithesh-pallikkara-5842348

Senior IT Manager at Florida Blue with 27 years in enterprise IT across healthcare, banking and global consulting. I lead technology for enrollment and billing, delivered an award-winning member app with a team of 30+, and am moving enrollment off the mainframe onto an AI-enabled platform. TOGAF-certified architect with deep roots in data warehousing and BI.

EXPERIENCE

Senior IT Manager

Jun 2016 – now

Florida Blue (BlueCross BlueShield of Florida), Jacksonville

- **Member mobile app:** led a 30+ person team delivering native iOS and Android apps as a one-stop shop for ID cards, claims, benefits, care search and bill pay. Won the **Platinum Award, Best Designed Mobile App** (Best Mobile App Awards, Fall 2017), with a 4+ star rating.
- **Enrollment modernization:** leading the move of the enrollment domain from a legacy mainframe to a modern, AI-enabled technology stack, from architecture and execution planning through migration.
- Sets operating plans and technology direction for the Enrollment and Billing domain to support Group Market growth. Gave technology direction for the WebTPA transition and oversaw Sales IT.
- Owns budget, performance management and career development for the team. Leads AI initiatives within the domain.

BI Solution and Data Architect

Oct 2013 – Jun 2016

Citi, Jacksonville

Architected Citi's global analytics program, consolidating internal data worldwide into common warehouses. Designed the Teradata models, star schemas and ETL load process. Led big data work for Cards and Tableau reporting.

Senior Consultant, Oracle BI

Dec 2012 – Oct 2013

Fujitsu America

Built a consolidated corporate reporting platform for a finance application merger at Medical Services Company (Oracle EBS R12, ODI, Hyperion Financial Management). Delivered planning, budgeting and BI strategy for finance clients.

Business Analyst to BI Architect

Feb 2001 – Dec 2012

Tata Consultancy Services

- **Citi (2006 – 2012):** BI Architect for the Genesis program, consolidating Retail Bank and Cards data globally into regional warehouses. Led the enterprise planning and forecasting platforms for Citi finance and the retirement of TM1, managing onsite and offshore teams.
- **USAA (2003 – 2006):** Lead Architect migrating executive decision support to Essbase, including single sign-on. Project Lead for Auto Physical Damage claims reporting across three vendors.
- **Earlier:** Johnson Controls inventory costing; ALMITY, an asset-liability management product for Indian banks, including its rollout at Indian Bank.

Software Engineer

Dec 1999 – Jan 2001

Hughes Telecom India
